This Bibliography on Mental Retardation has been developed to provide special educators, supervisors of special education, students, and researchers with a comprehensive listing of the major references in the area of the education of the mentally retarded. The Bulletin has been divided into four separate sections: (1) Professional Literature; (2) Professional Curriculum; (3) General Literature; and (4) Historical Literature. The reader has also been provided with a current listing of publishers.

The bibliography is not an exhaustive listing. An attempt has been made to include most of the major and better-known references in the field to date. The student will need to seek other references for journal and periodical reports of research studies in mental retardation.

Supplementary addenda references will be provided teachers periodically for insertion into this bulletin. In addition, the Bureau Memorandum will continue to carry items of interest on new books and materials as these are received at the state department level. Readers are also referred to Bulletin No. 23 - Teacher Suggested References for Classroom Aids and Materials issued by the department.
